

Glen Ridge Public Schools

John M. Mucciolo, Ph.D., Superintendent of Schools

June 19, 2009

Dear Parents,

This morning we received word that one of our students at the Forest Avenue School has a case of Type-A influenza. You may know that the H1N1 influenza falls under the category of this Type-A influenza. For your information, the child was in school on Thursday, but did not experience a sudden onset of A-type influenza until late Thursday night. If, after further testing is completed, this case becomes a confirmed case of H1N1 influenza, I shall inform you immediately.

Be assured that we are following health department protocols, including tracking absences, thoroughly cleaning the buildings, and keeping you informed.

We remain vigilant,

John Mucciolo
