

Emergency Drill December 13 2023

Good afternoon, parents. Glen Ridge High School students and staff participated in a lockdown drill earlier today. The goal was to make sure 8th grade students are familiar with safety and communication procedures in the event of an active shooter during their lunch period.

Recent legislation requires New Jersey public schools to notify parents after conducting emergency drills. Each month we'll practice safety procedures to improve our response to a variety of emergency situations. These drills are often conducted in cooperation with the Glen Ridge Police Department.

Please continue reinforcing the importance of these emergency drills with your child. Lastly, encourage them to report any concerns related to school safety and security to a staff member.

Thank you,

John W. Lawlor

Principal

Glen Ridge High School
