## **GR SUMMER ARTS 2021**

We will be returning to historic Freeman Gardens for a three-week camp schedule, highlighting the natural beauty of the garden through painting, drawing, sculpture and crafts. In our new science component, students will learn more about their natural surroundings, as seen through the flora and fauna of Freeman Gardens. In addition, theatre and music classes will be offered in the same, open-air environment. Our goal is to provide the highest level of artistic instruction in Music, Theatre, Visual Art and now Science education through highly interactive small group or one-on-one instruction culminating in outdoor, socially-distanced performances and gallery showings.
