

Young Learners 2 2018-2019

SPRING Newsletter

We've been busy...

- Plotting coordinates
Students created art by plotting ordered pairs.
- Solving logic grids
Students used deductive reasoning to solve logic puzzles.
- Exploring attributes
Students used venn diagrams to determine attributes and sort shapes.
- Investigating slope
Students learned that the slope of an inclined plane determines speed.

Upcoming...

Students will be challenged to

- explore lift, force, and gravity by building kites
- design a building inspired by Zaha Hadid
- explore viscosity by racing liquids
- analyze critical load by creating card houses
