The Language Arts Program enables our students to participate effectively in a technological, complex and ever-changing world.

Course Description:

Graphic Novels is a course designed to aid students in developing their interpretive reading skills so they can better understand reading and writing in other areas of study. The course emphasizes the legitimacy of multi-modal literature and will focus on building inferential thinking skills, drawing conclusions and connections by “reading between the lines”, and developing creative and worthwhile research skills through group discussion and individual projects. Students will utilize the selected literature to explore real world issues in an engaging and age appropriate manner. Ultimately, students will gain necessary reading and writing skills that apply across all 21st Century courses.
